¹ This information is a duplicate of that provided on your application or transfer forms. However, it helps us ensure accuracy in the event forms in the application package get separated during processing. Only one of the Parcel ID's in the FMP is needed.

² The exact name of the owner as it is listed on the current property deed or title. If this does not match township records, you may have trouble recording the affidavit, creating additional costs and delays to you.

³ If you have already completed a QF Affidavit with MDARD, you will have been assigned a Customer ID. Enter that here if available as it speeds the application process.

⁴ Multiple parcels covered by a Forest Management Plan need not be in the same specific legal ownership, as indicated by the "Owner on Deed". You may use this area to indicate if you're signing as "husband", "wife", "trustee", "partner", "president", etc.
